

Are you recently diagnosed or living with a Brain Tumour ?

Find out about your Neuro- Oncology Service

Information Evening

Thursday 13th June 2013

6:30pm – 9:00pm

Centre for Cancer Research & Cell Biology (CCRCB), Queen's University Belfast

The Regional Neuro-Oncology Service (or Neuro-Oncology Multidisciplinary Team 'MDT') is made up of professionals who are experts in the diagnosis and treatment of brain tumours and spinal neurological tumours. This **Information Evening** shall provide an overview of the organisation and management of the service and provide a unique opportunity to hear about new developments and to meet your Team.

The event is aimed at patients, their carers, family and friends affected by a brain tumour.
